DECT World 2026 Pre-Event

Getting Started with NR+

M. Dolores Pérez Guirao

November 2, 2026

Ostfalia University of Applied Sciences – Hochschule Braunschweig/Wolfenbüttel | Salzdahlumer Str. 46/48 | 38302 Wolfenbüttel

OpenDECT-X

- No open-source reference implementation available
  - Existing stacks are proprietary and closed-source
  - SMEs currently face high barriers to market entry
  - Closed-source stacks limit academic research to a black-box approach
  - DECT NR+ is inherently suited for an open, community-driven ecosystem

- ***OpenDECT-X:*** BMFTR-funded, ten-month project starting May 2026
  - Lay the groundwork for a sustainable approach to an open stack
  - Community building and dissemination: An open ecosystem needs active contributors, not just a concept

Consortium:

Ostfalia
Hochschule für angewandte Wissenschaften

SENNHEISER

last mile semiconductor

Associated partner:

NORDIC SEMICONDUCTOR

Opener Initiative

- Originally envisioned as an outcome of *OpenDECT-X*, the *Opener Initiative* was launched ahead of the project start to maintain momentum in the rapidly evolving DECT NR+ ecosystem.

- **Idea:** Converge existing, member-developed implementations into a unified, open NR+ reference stack covering the MAC and upper layers – built from the community, for the community.
  - **Ready for commercial use:** Licensed under Apache 2.0
  - **Application- and vendor-agnostic:** From building automation to professional audio
  - **Interoperable and standards-compliant:** Aiming at ETSI conformance

Agenda

Talks	
12:00	Welcome and introduction Roel Ottink (DECT Forum), M. Dolores Pérez Guirao (OPENER Initiative)
12:15	Overview of DECT NR+ Andreas Wilzeck (Sennheiser)
12:30	The NR+ ecosystem: software stacks and hardware platforms Fredi della Torre (STRATUM 9), Alexander Luzhetsky (DSR), Julián Murillo (Qartia), William Fish (Manulytica), Christian Amsüss (Ariel OS), Axel Moinet (OPENER Initiative)
13:30	*Lunch break*
NR+ Experience Area	
14:30	Hands-on zones, guided demos, expert Q&A Demos by STRATUM 9, DSR, Qartia, Manulytica, OPENER Initiative *Coffee break at 16:30*
19:00	Networking, pizza, and cold beer
